### THE ERRING CHILD.

John Sharp Williams, senator from Mississippi and for years Democratic leader in the house, has had the courage to stand up on the floor of the senate and explain the cause of Demochild. This is what he said in part: "The poor, dear, old foolish Democratic party is going through the cause you are not accustomed to governing anybody or anything; you canering anybody or anything; you cannot not govern the country; you cannot even govern the country; you cannot competent." And his hearers knew that he was telling the truth. Nor did Senator Williams have to look far to fin: proof of that incompetence. During the year 1314, following the enactment of the Democratic tariff bill, there were 18,280 failures in the truth of the provides that the vessels of the passage, suspected the dope, wrote it up something as follows: "Mrs. Journal of the provides that the vessels of the power line and private of both Gerbardy and charity, gave a fancy dress ball have entry and departure with their prizes from ports of both countries. in the Republican ranks from healing up. This man Perkins says that the notion that the Progressives have their hopes centered on one man and will be content with no other is all a mistake. That the Progressives are first and foremost for Roosevelt is not denied, but it is denied that they will demand that the Republicans must nominate Roosevelt or else lose the Progressive vote. In other words, if the Republicans do not see fit to nominate the ex-president, but will choose some other candidate who is favorable to the more progressive principles of the Republican party, the bulk of the Bull Moose vote will go to that nominee. The Progressives, as well as the Republicans, are anxious to put an end to Wilsonism, and mighty liberal in ther only in case the Ropublican convention should demonstrate a resentful Decorations.

That, of course, is not to be expected. While the Roosevelt faction was undoubtedly guilty of inflicting upon the country four long years of Democratic mismanagement, just as a protest against the methous of Republican party leaders, they are still Republicans in scutiment and anxious to renew their old allegiance. At the same time it must be conceded that the Republicans learned some things by the results of the last presidential campaign and will be
